Category: DBMS

Question: What is DBMS?

Answer: Database Management System.

Category: DBMS

Question: What is a Primary Key?

Answer: A field that uniquely identifies each record in a table.

Category: DBMS

Question: What is a Foreign Key?

Answer: A field that creates a relationship between two tables.

Category: DBMS

Question: What is Normalization?

Answer: The process of organizing data to reduce redundancy.

Category: DBMS

Question: What does SQL stand for?

Answer: Structured Query Language.

Category: DBMS

Question: What is a Table?

Answer: A collection of related data organized in rows and columns.

Category: DBMS

Question: What is a Record?

Answer: A single row in a database table.

Category: DBMS

Question: What is a Query?

Answer: A request for data from a database.

Category: Data Science

Question: What is Data Science?

Answer: The study of extracting insights from data.

Category: Data Science

Question: What is Machine Learning?

Answer: A branch of AI that enables systems to learn from data.

Category: Data Science

Question: What is Data Visualization?

Answer: The graphical representation of data using charts and graphs.

Category: Data Science

Question: What is a Dataset?

Answer: A collection of related data.

Category: Data Science

Question: What is Artificial Intelligence?

Answer: Technology that enables machines to simulate human intelligence.

Category: Data Science

Question: What is Data Cleaning?

Answer: The process of removing errors and inconsistencies from data.

Category: Data Science

Question: What is Predictive Analytics?

Answer: Using historical data to predict future outcomes.

Category: Data Science

Question: What is Big Data?

Answer: Extremely large datasets that require advanced tools for processing.

Category: General Knowledge

Question: What is the capital of Australia?

Answer: Canberra

Category: General Knowledge

Question: Who is known as the Father of the Indian Constitution?

Answer: Dr. B. R. Ambedkar.

Category: General Knowledge

Question: Which planet is known as the Red Planet?

Answer: Mars

Category: General Knowledge

Question: What is the largest ocean on Earth?

Answer: Pacific Ocean

Category: General Knowledge

Question: Who invented the World Wide Web?

Answer: Tim Berners-Lee.

Category: General Knowledge

Question: What is the national animal of India?

Answer: Bengal Tiger

Category: General Knowledge

Question: Which is the longest river in the world?

Answer: Nile River

Category: General Knowledge

Question: What is the capital of Karnataka?

Answer: Bengaluru

Category: Programming

Question: What is an Algorithm?

Answer: A step by step procedure to solve a problem.

Category: Programming

Question: What is a Variable?

Answer: A named storage location for data.

Category: Programming

Question: What is Debugging?

Answer: The process of finding and fixing errors in code.

Category: Programming

Question: What is Object-Oriented Programming (OOP)?

Answer: A programming paradigm based on objects and classes.

Category: Programming

Question: What is a Compiler?

Answer: Software that converts source code into machine code.

Category: Programming

Question: What is Source Code?

Answer: Human-readable code written by a programmer.

Category: Programming

Question: What is a Loop?

Answer: A control structure used to repeat a block of code.

Category: Programming

Question: What is Conditional Statements?

Answer: A statement used to make decisions in a program.

Category: Python

Question: What is Python?

Answer: A high-level programming language used for software development and data analysis.

Category: Python

Question: What is a List in Python?

Answer: A mutable collection used to store multiple items.

Category: Python

Question: What is a Tuple in Python?

Answer: An immutable collection of ordered elements.

Category: Python

Question: What is a Dictionary?

Answer: A collection of key-value pairs.

Category: Python

Question: What does the len() function do?

Answer: Returns the number of items in an object.

Category: Python

Question: What is a Function in Python?

Answer: A reusable block of code that performs a specific task.

Category: Python

Question: What is a Module?

Answer: A file containing Python code that can be imported into another program.

Category: Python

Question: What is Exception Handling?

Answer: A method used to handle runtime errors in a program.
